## STARTER FEEDS

**600 : 606 : 612**

| | PROTEIN | FAT | LYSINE | MEDICATION | WITHDRAWAL | FORM |
|---|---|---|---|---|---|---|
| 600 | 25% | 5.5% | 1.7% | DENAGARD/CTC | 2 DAYS | PELLET |
| 606 | 23% | 6.5% | 1.5% | DENAGARD/CTC | 2 DAYS | PELLET |
| 612 | 22.5% | 7.0% | 1.4% | DENAGARD/CTC | 2 DAYS | PELLET |

**Most complete line of baby pig feeds available to fit your operation.**

**600 Neo Starter:** First feed for early weaning or when every pig in the litter counts. Get your pigs started fast at weaning. Awesome consumption.

**606 Blitz:** A blend of PROVEN Lindner diets (600 and 612) that is the perfect feed for the right bloom to market your pigs, and is an easy transition from 600.

**612** is the most versatile feed of the series and can be fed up to 75 lbs. Maintain bloom while positioning pigs for the transition to new owners.

## GROWER/FINISHER FEEDS

**631 : 632 : 633 : 975 : 672 :673 : 684 : 685 : 688**

| | PROTEIN | FAT | LYSINE | MEDICATION | WITHDRAWAL | FORM |
|---|---|---|---|---|---|---|
| 631 | 20% | 5.5% | 1.3% | LINCOMIX | NONE | PELLET |
| 632 | 19.5% | 5.0% | 1.3% | LINCO/SAFEGUARD | 6 DAYS | PELLET |
| 633 | 20% | 5.5% | 1.3% | LINCOMIX | NONE | MEAL |
| 975 | 18% | 5.5% | 1.1% | LINCOMIX | NONE | MEAL |
| 672 | 17.5% | 5.5% | 1.1% | LINCOMIX | NONE | PELLET |
| 673 | 17.5% | 5.5% | 1.1% | LINCOMIX | NONE | MEAL |
| 684 | 15% | 7.5% | 0.9% | TYLAN | NONE | MEAL |
| 685 | 15% | 7.5% | 0.9% | TYLAN | NONE | PELLET |
| 688 | 15.5% | 5.5% | 0.9% | LINCOMIX | NONE | MEAL |

**Power, Shape and High Fat.**

**631, 632,** and **633** are the perfect feed to start with after purchasing or for transitioning project pigs. A 20% protein feed to achieve a desired level of muscle shape. Start all of your projects on this series, and it can be fed anytime during the feeding phase. **632** contains Safeguard as a wormer. **631** is a pellet and **633** is the meal version, without the wormer.

**OnTarget**

To further enhance the dynamic line up of nutritional products offered at Lindner United, we introduce, **975**, a nutritionally balanced complete feed, specifically designed to serve as the foundation for growing your pigs. This product works extremely well, when moving from the **632**, and keeping your pig OnTarget for the final finishing stage when you will incorporate **684** and **614**.

**Half and Half**

Team Lindner has hung more banners combining **632** and **685**, now you can have the same success with no mixing! **672** is truly 50% 632 and 50% 685 ration. Provides a balanced diet needed for today's popular genetics. **673** is the meal version of **672.**

**Soft Shape**

Feeding pigs for today's show ring. A lot of feeders mix **632** and **685** at the appropriate ratio to achieve the perfect look. **684** is the meal version of **685.** **688** is recommended to achieve extra body, and is especially effective on gilts.

## SPECIALTY FEEDS

**Scud Missiles 611 : 613 : 614**
**Slop 698**

| | PROTEIN | FAT | LYSINE | MEDICATION | WITHDRAWAL | FORM |
|---|---|---|---|---|---|---|
| 611 | 22.5% | 7.0% | 1.4% | CTC | NONE | PELLET |
| 613 | 22.5% | 7.0% | 1.4% | TYLAN/RATCO | NONE | PELLET |
| 614 | 22.5% | 7.0% | 1.4% | CTC | NONE | MEAL |
| 698 | 14.5% | 13.0% | 0.7% | NONE | NONE | MEAL |

**Scud Missiles**

**611** is great to start, for the final push, or any time for added body and mass. Nothing else like it on the market! **614** is the meal version of **611.** **613** contains Paylean® at 9 grams/ton when fed at a rate of 4 lbs/day.

**Slop**

**698** can be used daily to prevent stomach health issues, throughout the feeding period for finicky or picky eaters or prior to and at the show to increase consumption and protect gut health while adding fill, rib and body.

## SOW FEEDS

**Sow Gestation 990**
**Priority One 61100**

| | PROTEIN | FAT | LYSINE | MEDICATION | WITHDRAWAL | FORM |
|---|---|---|---|---|---|---|
| 990 | 13% | 3.0% | 0.7% | NONE | NONE | MEAL |
| 61100 | 38% | 5% | 2.4% | NONE | NONE | MEAL |

**Sow Gestation**

**990** is a premier gestation ration formulated with innovative technologies to optimize the productivity and longevity of today's show sows and gilts.

**Priority One**

Make your sows your #1 Priority! No sow should ever be farrowed without it! The most innovative product on the market, as it stimulates appetite and water intake, reduces constipation and is scientifically proven to enhance reproductive traits in sows! Nutritionally balanced so that when combined with LU **990**, it will make a complete lactation diet!

## SUPPLEMENTS

### 61108: FULL FIGURE

A coconut oil based product used as an added source of fat. Get fast results and help maintain a strong appetite without slowing them down.

### 61105: TNT

TNT is a unique filler product that explodes and softens body and rib while also maintaining freshness.

### 61502: DIAL N

Provides a higher calorie intake for added weight gain and performance in growing and finishing showpigs.

### 61102: LIFE SAVER

For use in showpigs to maintain a healthy appearance and freshness. Use as an added electrolyte and energy source. The ultimate appetite stimulant!

### 61122: TUNE N

Tune N is a highly palatable supplement designed to optimize condition for target shows - enhance muscle definition while cleaning excess condition for a fresher look.

### 61101: VITAMIN P

Taking Paylean® to another level! Includes the most comprehensive pro-biotic and yeast profile for superior digestive function, and the elite Feet First® program for excellent foot integrity during stressful feeding periods.

### 61111: SYSTEM MECHANIC

Joint, skeletal, and gut...all in one! The only supplement of its kind. You will be blown away with the level of consumption, joint comfort and skeletal development.

### 61113: SHOMEGA

High in the essential fatty acids (EPA and DHA), which have been shown to improve skin and hair quality, joint health, and stride length.

### 760: STEAMED ROLLED OATS

High in fiber, and fully supports a more healthy digestion.

## BASEMIXES

### 60300: BASELINE SOW 100

Completely customizable for your operation! Create your own gestation and/or lactation diet with this 100 lb. inclusion basemix.

### 60400: BASELINE STARTER 400

Recommend feeding Starter 400 for 25-75 lb. pigs. Ideal for those who want their showpigs bloomy and ready for sales.

### 60500: BASELINE GF 100

GF 100 is recommended to be fed from 75 lbs. to market weight. Alter inclusion ingredients to fit your needs and target lysine, protein, and fat levels. Works well on both barrows and gilts!

## JBS UNITED GOAT FEEDS

**61202 : 61204**

| | PRODUCT | PROTEIN | FAT | CRUDE FIBER (MAX) | MEDICATION | FORM |
|---|---|---|---|---|---|---|
| 61202 | BACKDROP COMPLETE | 16.5% | 5% | 11% | RUMENSIN | PELLETED |
| 61204 | FULL THROTTLE | 16.5% | 5% | 13% | DECCOX | TEXTURIZED |

JBS United goat feeds are designed to be high performance complete feeds for starting young kids, developing wethers, and finishing champions.
